Helpful Party Tips

Your child's birthday party is scheduled for two hours, your party room will be available for the one hour it is scheduled. Because we have many parties following each other, you may not be able to get into your party room until the time it is scheduled. We suggest you tell everyone to be at your party 15 minutes before its scheduled time so everyone will be here and ready to bowl on time.

For proper supervision we suggest that you have a minimum of 1 adult for every two lanes. And for everyone's safety, if a ball gets stuck on the lane and needs to be retrieved, no one (adults or children) should cross the foul line onto the oiled lane itself to get the ball. Notify the control counter and an employee will retrieve the ball for you.

Our staff will assist you with your party by helping you put names in the scorers, bringing your food to your party room and with setup and cleanup, but it is your responsibility to actually run your child's birthday party.

Most of all HAVE FUN!

Please—No Piñatas or Confetti
